# OUR SERVICES

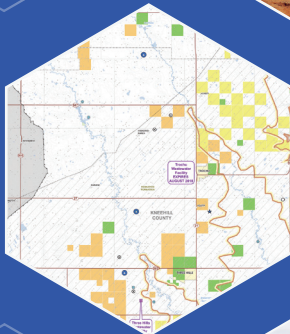

## WATER SUPPLY WELL DESIGN & AQUIFER TESTING

From start to finish, Connate Water's expertise with drilling and installation will ensure that your water supply well is properly constructed.

## CORPORATE WATER MANAGEMENT

Connate Water specializes in Corporate Water Management which is centered around achieving client focused goals. Our services include identification of alternative water sources, water usage reporting/tracking and facilitating stakeholder engagement.

## AQUIFER & GIS MAPPING

Stay ahead of the competition with Connate Water's innovative hydrogeology maps! Connate Water has the Geographical Information System expertise for various resource development projects.

## HYDROGEOLOGICAL REPORTING & LICENSING

The foundation of Connate Water was built on technical excellence and delivering high-quality reports to our clients. Our reporting approach has consistently resulted in an expedited approval process.

## SPECIALIZED EQUIPMENT RENTALS

Why purchase costly equipment for short-term projects, when you can rent it? Be confident with our reliable and well-maintained flow-meters, pressure transducers, electric water level tape and groundwater sampling equipment. Find out more about our weekly and monthly rates.
